| <p>Google Works best on Android.<br/>Will there be a dual technology on both Android and ipad?<br/>Google works on multiple platforms</p>         | <p>How much time will be spent on the ipad per day?<br/>What will be taught?<br/>The time will vary from Year level and individual classes.<br/>The device is a tool to support learning. It does not replace all pencil and paper activities or art.<br/>We stress there will be a balance of time spent using a device.</p>                | <p>Would prefer to see each class have 5 ipads and kids working in a small group.<br/>We understand your opinion. The reality is 5 iPads per class would cost<br/>At least \$35,000. You have to estimate replacement costs in schools for every 3 years. It is simply not an option we can afford.</p> | <p>Have you looked into the health implications of so much use of devices? e.g. RSI, vision / eye strain/ electro-magnetic fields on the body<br/>How can we protect our kids?<br/>Yes we have done our research. The MOH has provided us with the facts to schools. Please see the letter on the website.</p> | <p>How will the school keep up with the upgraded technology?<br/>We have spent a lot of time working with Tania Coutts &amp; The Blended e’Learning contract with the MOE. It is the same way we have kept up with the changes in the past: Professional Development targeted at our needs.</p> | <p>How will I know my child’s device will be safe at school?<br/>We have a filing cabinet available for every class to lock devices away each day.</p>   |
| <p>Why Apple?<br/>Apple because of the userability, availability of Educational Apps &amp; 10 hr battery life<br/>Can we use Android?<br/>Yes</p> | <p>How are we going to ensure that our children develop all the personal &amp; interpersonal behaviours that the “Present” demands?<br/>The Five Feather Values underpin all that we do at Maunu School.<br/>The use of devices is very collaborative. Peer assessment and feedback is an element with blogging and sharing Google Docs.</p> | <p>Could we do more targeted fund raising for more iPads in the school?<br/>Parents don’t have to buy for each child.<br/>It would be an on going cost of approximately \$15,000 a year. It is a cost schools can not afford.</p>   | <p>What research is there demonstrating safety of this (lack of harm) in terms of concentration, memory, social interaction?<br/>Please see the MOH letter attached on the website.</p>  | <p>Are Intermediates and High Schools ready?<br/>Yes: Pompallier &amp; Whangarei Intermediate are BYOD in 2014. Many of the High Schools have had a BYOD/ eLearning policy in place already.</p>  | <p>Who is liable if an ipad is broken or damaged?<br/>Parents or school.<br/>Who pays the excess?<br/>Parents are liable for insurance. We recommend you name it on your contents insurance.</p> |

|---|--|--|--|---|---|
| <p>Will there be an option to lease devices rather than buy?<br/>Noel Leeming will be providing a parent package to parents. Most stores have lease options or hire purchase options.</p>   | <p>How long will they use the ipad each day?<br/>Ratio of day<br/>We can not say exactly. It will be used as a tool to support learning when appropriate. It will not replace the pencil or the paint brush.</p> |  | <p>I want my child to live in the "PRESENT"<br/>How will this happen?<br/>Digital Technology is the present. Our students are Digital Natives. They don't know a time when technology wasn't in their lives.</p> | <p>What research is there to show that educational outcomes are improved with this sort of tech?<br/>Please read the research document <a href="http://www2.hull.ac.uk/ifl/ipadresearchinschools.aspx">www2.hull.ac.uk/ifl/ipadresearchinschools.aspx</a></p> | <p>How can we keep our children safe with their BYOD?<br/>Particularly off the school grounds e.g. on the school bus coming from the CBD with older children. Walking to and from school.<br/>We will encourage students to keep the device in their bags at all times. Other schools have a BYOD policy, including Pompallier in 2014.</p> |
| <p>Will every child in a family have a device?<br/>Having a device is not compulsory. Research shows a personal device will support learning. But sharing a device in a family is understandable. School iPads are also available in class.</p> | <p>Will paint and crayons be phased out &amp; My Story painting apps be used instead?<br/>NO</p>   |  |  |   | <p>Can we leave the ipads / devices at school?<br/>We recommend the students take it home as it is a personal device and they may want to work on their device at home.</p>   |
| <p>How much are ipod cases?<br/>\$23.50 through the parent package at Noel Leeming.</p>   | <p>Is the iPad not taking teaching responsibilities from the teacher?<br/>No, the iPad is a tool to support learning. The teacher is teaching the key skills of the Key Competencies .</p>                       |  |  |   | <p>How can you replace a broken ipad?<br/>We can recommend local service providers.</p>   |

|  |   |  |  |  |  |
|--|---|--|--|--|--|
|  | <p>The teaching pedagogy at Maunu School is still driven through inquiry and a thinking curriculum. The iPad allows student to present their ideas, knowledge and understanding in a more creative way. The iPad allows students to access content knowledge quickly.</p> |  |  |  |  |
| <p>How much does an iPad cost?<br/>The iPad 2, through the parent package costs \$549.00</p>   | <p>What's different from learning on the iPad?<br/>You are able to access a level of creativity on the iPad that you simply would find hard to recreate using pencil and paper. Levels of motivation and engagement increase with the use of the iPad.</p>                |  |  |  |  |
| <p>How do you download the games?<br/>Our how to guide will give you links to download Apps. The Apps the school use are Educational and promote creativity.</p> |   |  |  |  |  |
