

USE OF KIWISPORT FUNDING AT MAUNU SCHOOL IN 2020

The kiwisport funding at Maunu School has been used to assist funding for various projects.

1. A Perceptual Motor Programme was provided to children in Years One, Two and Three, plus some older children who exhibited some lack of coordination. This programme was part of the Junior Team teaching and learning programme and was coordinated by a teacher.
2. We held a school athletics day and then a zone day for children from Maunu and Hora Hora schools. The finalists from this day competed at the WPSSA championships.
3. We had Hockey programmes & Cricket coaching that involved lessons for children across the school.
4. Sports (House) competitions are run at lunchtime involving children from across the school.
5. A rippa rugby in house tournament was held at school.
6. A fun festival including various activities was held in term 4.
7. PAL sports held twice weekly at lunchtimes. These are coordinated by student leaders.
8. Sports events and activities are promoted and the school grounds are made accessible to sports groups and the public.
